PRESS COMMUNIQUÉ.

Fort St. George, May 14, 1937
(G.O. No. 978, Revenue).

No. 406.—The Agriculturists' Loans (Madras Amendment) Act and the rules framed thereunder, enabling the grant direct by the Government of loans for the relief of indebtedness among agriculturists were brought into force in October 1935. The rules were published in the Revenue Department Notification No. 321, dated the 29th October 1935, at pages 1430-1442 of Part I of the *Fort St. George Gazette*, dated the 29th October 1935. The scheme was first started as an experimental measure in certain firkas of the Madurantakam and Conjeeveram taluks of the Chingleput district and in the Ramachandrapur and Rajahmundry taluks of the East Godavari district. A Deputy Collector under the designation of Special Loans Officer was employed in each of the two areas mentioned with a staff of clerks, Revenue Inspectors and peons.

In June 1936, the scheme was extended to certain areas (mainly those not served by the land mortgage banks) in the districts of Kistna, Kurnool, Anantapur, Salem, South Arcot, Tuchunapoly, Malabar and South Kanara. The work in the Anantapur district was wound up by the end of December 1936, and that in the Kistna district by the end of February 1937. The Nellore district was taken up in the place of the Anantapur district and the Guntur district in the place of the Kistna district.

An essential feature of the scheme is the scaling down of the amount of debt legally due to a creditor. The rules were amended in the first instance so as to ensure, as the minimum scaling down of the debt to the principal, plus 3 per cent simple interest or twice the principal, whichever was less. It was subsequently found from experience that this limit of 6 per cent restricted the usefulness of the scheme in some districts. The Government have therefore enhanced the limit to 6½ per cent with effect from March 1937.

The progress made in the working of the scheme during fasli 1345 and in fasli 1346 (up to the end of March 1937) is shown below :—

Description of Items.	Fasli 1345.	Fasli 1346 (up to the end of March 1937).
(1) Number of applications received	2,089	11,192
(2) Number rejected on preliminary enquiry	708	1,861
(3) Number in which enquiry under rule VI has been completed	1,098	8,133
(4) Amount legally due in the case of applications in item (3)	Rs. 5,12,676	Rs. 31,70,625
(5) Amount so scaled down	4,18,158	22,15,368
(6) Reduction by scaling down as its percentage to the amount due	1,04,718 (20 per cent).	9,54,657 (30·1 per cent).
(7) Amount disbursed	1,03,035	12,65,765
(8) Total extent of indebtedness relieved and the percentage of the total amount disbursed in full settlement of the debts to the total amount due	2,22,234 (76 per cent.)	18,10,563 (71·0 per cent).

The progress so far made in working the scheme cannot be considered unsatisfactory. The Government however regret that the agricultural population has not availed itself of the benefits of the scheme to a greater extent. The Government are prepared to provide larger funds, if necessary, for the disbursement of loans under this scheme during the current year and they hope that agriculturists will take full advantage of the scheme in the future.

2. Tenders must be submitted in sealed covers, and should be addressed to the Superintending Engineer, Dowlaishwaram Circle, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees four hundred only (Rs. 400) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Godavari Western Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Circle office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security deposit of rupees four hundred only (Rs. 400) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the standard preliminary specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Circle office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Godavari Western Division. A copy of the set of contract documents can also be had on payment of Rs. 5 (rupees five only) for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work.

The Government will not, however, after acceptance of a contract rate, pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery
(6) Accidents.
(7) Delays
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Godavari Western Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in terms of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or to due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract forms, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor:—

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
Three months	.. 25 per cent.
Six months	.. 50 "
Nine months	.. 75 "
Twelve months	.. 100 "

14. No part of the contract shall be sublet without written permission of the Superintending Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff, and if so, to give the qualifications of such staff and the extent to which they will be employed on the work in the form noted in schedule "C."*

Tenders, which will only be received on typed forms to be had free of cost from the office of the Director, King Institute of Preventive Medicine, Guindy, should be superscribed "Tenders for the supply of calves by auction." These tenders will be opened at the time of auction and the offered rates considered along with the bids.

The tendered rates will be announced to the bidders present if the auction rates are higher than the tender rates and the bidders present will be given an opportunity of outbidding the tender rates.

2. The calves supplied should be according to the description noted in the schedule hereto and should be brought from Salem and Coimbatore districts and taken by the quickest possible train.

3. On no account will the deposit of previous contract be taken as an authority to permit a tenderer or bidder to submit his tender or bid without depositing earnest money.

4. No claim for any revision or modification of the contract rates will be considered either on account of any enhancement of the customs duty or on any other ground whatsoever.

5. The number and quantity entered in the schedule is the probable number or quantity which the Director requires to be supplied and may be more or less according to actual requirements. The Director does not bind himself to receive the full quantity or number noted in the schedule but the successful bidder or tenderer will have to supply such large number or increased quantity as the Director may require him to supply.

6. Successful tenderers or bidders will be required to enter into a stamped agreement with the Director of the King Institute within seven days of the receipt of intimation by them that their rates have been accepted by depositing a security of 10 per cent of the total value of the supplies undertaken. Failing compliance within the time specified, the earnest money may be confiscated and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Institute. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned *at the close of the auction*.

7. The Director reserves the right to accept or reject any bid or tender without assigning any reason for so doing. The lowest bids will not also be accepted if the bidders are subsequently found to have no status and business capacity to run the contract.

8. Contracts should not be sublet without the special sanction of the Surgeon-General.

9. Any rates accepted and contracts entered into will be subject to confirmation by Government whose decision shall also be final in all questions of infringement.

10. No article is to be supplied to the Institute except on a requisition signed by the Director or some responsible person or persons authorized by him in writing to do so.

11. No advance of cash will on any account be made to the contractors when giving orders nor will the Institute pay freight or other charges on consignments to be afterwards deducted from bills.

12. Payment will be made on monthly bills, fractions of a rupee in the totals of contractor's bills shall be rounded off to the nearest rupee (i.e., fractions of less than half a rupee are disregarded and half a rupee and over are taken as a rupee). The total of bills for less than Rs. 25 shall be rounded off to the nearest anna (i.e., amounts below six pies are disregarded and six pies and above are taken as an anna).

13. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of the agreement, a fine not exceeding 10 per cent of the deposit money will be levied at the discretion of the Director, for each and every such case of default. For repeated infringement of the stipulations of the contract, the contract may also be annulled with the sanction of the Government, all losses sustainable by the Institute in consequence of the annulment being recovered from the security deposited by the contractors or other money due to them; and in the case of any residue, by legal measures if necessary.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others either to the Director of the Institute or to higher authorities will not be considered.

15. The calves hired out will be released after the vaccine operations thereon have been carried out and when no longer required. In the event of any casualty occurring among the accepted calves during the period of detention at the Institute, the Institute will indemnify the contractor at the rate of Rs. 2 per calf.

16. The respective contractors should remove the done calves within twenty-four hours after they are released. Calves not so removed will be disposed of by private sale or otherwise and the amount thus realized, less departmental expenses incurred, will be paid to the contractors.
